

Do you have a child 3 months to 2 years old who has eczema?

Would you like to improve the treatment of eczema?

If so, the

Trial of food allergy (IgE)
tests for eczema relief

study needs you!

We want to find out whether making changes to the diet of children with eczema, based on the results of food allergy tests, improves eczema control.

If you are interested in taking part or would like to find out more, please contact the study team using the details below.
